

Home Sample Collection Model

Diagnostics, Labs & Imaging

Document type: Plan / SOP / strategy / guide · Generated 14 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Designs a home sample-collection service — booking, phlebotomist routing, sample integrity, pricing, safety and app or call flow. Use it to add home collection. For cold chain use the Sample Cold-Chain & Transport Setup.

Purpose of this tool & output

Run profitable home collection

How the output is used

Use it to run profitable home collection — the routing, pricing and phlebotomy logistics that make home visits pay.

Important cautions

Home collection lives on sample integrity (immediate labelling and cold chain) and route efficiency (travel time is the main cost). Ensure phlebotomist safety and verification, especially for solo visits. Price convenience charges to keep it profitable.
