

NABL Quality Manual Builder

Diagnostics, Labs & Imaging

Document type: Plan / SOP / strategy / guide · Generated 15 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Drafts the structure and content outline of a NABL or ISO 15189 quality manual — policy, organisation, processes and quality-system elements. Use it to anchor your QMS. For accreditation strategy use the NABL Accreditation Guide.

Purpose of this tool & output

Draft your lab quality manual

How the output is used

Use it to draft your lab quality manual — the ISO 15189-aligned manual that anchors your NABL quality system.

Important cautions

A quality manual must reflect what your lab actually does, backed by real SOPs, records and quality-control data — not a copied document. Align to current ISO 15189 and NABL 112. This is a drafting aid; a competent quality manager must own and implement it.

Companion documents
