

Reagent-Rental / Equipment Placement Agreement

Diagnostics, Labs & Imaging

Document type: Contract / agreement · Generated 13 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Drafts a reagent-rental or equipment-placement agreement with a supplier (analyser placed against a reagent commitment), from your discrete terms. Use it to formalise a placement deal. For the buy-vs-rent decision use the Reagent-Rental vs Purchase Analyzer.

Purpose of this tool & output

Draft a reagent-rental placement contract

How the output is used

Use the draft for a reagent-rental or equipment-placement contract — minimum volume, pricing, service and exit — then have a lawyer review it.

Who receives it

The agreement is between the equipment/reagent supplier and the lab; each keeps a signed copy.

Fees & charges

Stamp duty per your state stamp act; GST is handled in invoicing.

Who should vet it

A lawyer, to check the minimum-commitment, pricing-lock, service and exit clauses before signing.

Important cautions

This is a draft using your inputs, not legal advice. Scrutinise the minimum-commitment, shortfall, lock-in, price-revision and uptime clauses — these determine the real cost and your exit. Have a lawyer review it before signing.

Companion documents

- Collection Centre Franchise Agreement
- Collection Centre / Aggregator Agreement
- Hospital Lab Management (PPP) Agreement
- B2B Reference Lab Agreement
- Teleradiology Services Agreement
- Corporate Wellness Services Agreement
