

# Teleradiology Services Agreement

Diagnostics, Labs & Imaging

Document type: Contract / agreement · Generated 15 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

## Background

Drafts a teleradiology services agreement with a radiologist or provider for remote reporting, from your discrete terms. Use it to formalise teleradiology. For the setup use the Teleradiology Setup Guide.

## Purpose of this tool & output

Contract remote radiology reporting

## How the output is used

Use the draft to contract remote radiology reporting — scope, TAT, qualification, liability and data security — then have a lawyer review it.

## Who receives it

The agreement is between the centre and the teleradiology provider/radiologist; each keeps a signed copy.

## Fees & charges

Stamp duty per your state stamp act; GST is handled in invoicing.

## Who should vet it

A lawyer, to check the qualification, liability, data-security and TAT clauses before signing.

## Important cautions

This is a draft using your inputs, not legal advice. The reporting radiologist must be genuinely qualified, registered and responsible, carry professional indemnity, and handle image data securely. Have a lawyer review it before signing.

## Companion documents

- Collection Centre Franchise Agreement
- Collection Centre / Aggregator Agreement
- Hospital Lab Management (PPP) Agreement
- B2B Reference Lab Agreement
- Reagent-Rental / Equipment Placement Agreement
- Corporate Wellness Services Agreement

This is AI-assisted guidance. Verify with a qualified professional before any binding decision. Fees, authorities and

processes vary by state and change over time — confirm with your state authority.
