

Diagnostic Business Valuation

Diagnostics, Labs & Imaging

Document type: Financial model / analysis · Generated 13 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Estimates an indicative valuation range for a diagnostic centre, from your discrete financials and value drivers, using earnings-multiple and asset views. Use it for a sale, partner or investment discussion. For the funding ask use the Funding / Loan Proposal.

Purpose of this tool & output

Estimate what your lab is worth

How the output is used

Use it to estimate what your lab is worth for a sale, investment or partner buy-in — earnings, equipment, accreditation and referral base counted.

Who should vet it

A CA or valuation professional, to firm up the valuation for any actual transaction.

Important cautions

Valuation is indicative and range-based; actual value is set by negotiation, due diligence and buyer strategy. Referrer concentration and dependence on the owner-signatory materially reduce value. Get professional advice for an actual transaction.
