

Competency Framework Builder

EdTech & Training

Document type: Plan / SOP / strategy / guide · Generated 27 Aug 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Builds a competency framework with level descriptors and observable behavioural indicators for a role or domain. Use this as the basis for training, assessment and hiring. For a role-by-role skill map use Role-Competency Matrix.

Purpose of this tool & output

Build a skills/competency framework

How the output is used

Use the builder to define a skills/competency framework that guides hiring, development and assessment.

Important cautions

AI-generated framework; validate with domain experts.
