AISEVAK.IN · FREE GUIDE

Batch Economics Calculator

Coaching, Tuition & Test-Prep

Document type: Financial model / analysis · Generated 29 Aug 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Model the economics of a batch — fee revenue vs faculty, material and allocated fixed cost, at different batch sizes — to find break-even fill and the profit per batch, so you price and size batches right. Enter the batch inputs below.

Purpose of this tool & output

Know the profit in each batch

How the output is used

Use it to know the profit in each batch — batch economics with fees, faculty cost and fill rate that show what a batch earns.

Who should vet it

Your accountant, to confirm the faculty cost and fill-rate assumptions in the batch economics.

Important cautions

AI-generated model; batch fill drives profit given fixed faculty cost - use your actual numbers.
