This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Get a dropout-prevention system — early-warning indicators, an at-risk identification and intervention workflow, and re-engagement tactics — so at-risk students are caught and helped before they leave. Describe your context below.

Purpose of this tool & output

Catch and re-engage at-risk students

How the output is used

Use it to catch and re-engage at-risk students — a dropout-prevention system with early signals and intervention.

Important cautions

AI-generated system; intervene supportively and early; use data to help, not pressure.
