Coaching / EdTech Business P&L

Coaching, Tuition & Test-Prep

Document type: Financial model / analysis · Generated 26 Aug 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Build a profit-and-loss view for a coaching/edtech business — fee revenue, faculty and delivery cost, marketing, rent/overheads and profit, with margins and seasonality — to understand and improve profitability. Enter your figures below.

Purpose of this tool & output

Understand the economics of teaching

How the output is used

Use it to understand the economics of teaching — a business P&L across fees, faculty, rent and marketing, and the real margin.

Who should vet it

Your CA or accountant, to confirm the faculty, rent and marketing costs against your actual books.

Important cautions

AI-generated analysis; validate with your accounts - batch fill, CAC and faculty cost drive coaching profit.

Companion documents

- Coaching Fee Pricing Strategy
- Batch Economics Calculator
