

# Authorised Service Centre (ASC) Setup

Consumer Electronics & Appliances

Document type: Plan / SOP / strategy / guide · Generated 14 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

## Background

Guides becoming a brand-authorised service centre (ASC) — the application and requirements (infra, trained technicians, tools, brand systems), the economics (warranty-job payouts, genuine parts, brand leads), and multi-brand ASC options — so you get steady brand-referred service volume and warranty work. Use it to pursue ASC status. For the centre itself use the Service Centre Setup tool.

## Purpose of this tool & output

Become a brand-authorised service centre

## How the output is used

Use it to become a brand-authorised service centre (ASC) — the requirements, application and setup a brand expects before it authorises you.

## Important cautions

ASC status brings steady brand-referred and warranty volume and genuine-parts access, but with brand SLAs, standards and audits; confirm the specific brand requirements and per-job payout economics before committing.
