This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Drafts standard sale and warranty terms with each term separate — pricing/MRP, warranty scope (brand vs store), returns/DOA policy, exchange, installation, and dispute handling — so every sale runs on clear, fair, consumer-law-compliant terms. Use it as your standard T&C. For AMC use the AMC / Service Contract tool.

Purpose of this tool & output

Fair, protective terms on every sale

How the output is used

Use it to put fair, protective terms on every sale — warranty, returns, delivery and payment conditions that reduce disputes and liability.

Who receives it

The terms apply to every customer buying from you and are owned by the proprietor; they are printed on the invoice and shown before the sale.

Important cautions

AI-generated draft; keep terms fair and consumer-law compliant (customers have defective/DOA rights; no above-MRP or unfair terms); clarify manufacturer-vs-store warranty. A lawyer should review.
