

Sales & Service Staff Hiring Kit

Consumer Electronics & Appliances

Document type: Plan / SOP / strategy / guide · Generated 15 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Produces a hiring kit for electronics roles — salesperson/product-specialist, service technician, finance/EMI desk, accounts — with role requirements, a knowledge/skill test, interview questions and verification. Use it to recruit. For the contract use the Employee Agreement.

Purpose of this tool & output

Hire knowledgeable sellers and skilled technicians

How the output is used

Use it to hire knowledgeable sellers and skilled technicians — a hiring kit with the skills, demo and reference checks that matter.

Important cautions

Test product knowledge and honest selling for sales, and hands-on skill for technicians; verify antecedents (staff handle cash, high-value stock and customer trust). Product-knowledgeable, honest staff are the store advantage over online.

Companion documents

- Sales & Service Incentive Scheme
