

# Carbon Credits Guide

Energy, Power & Renewables

Document type: Plan / SOP / strategy / guide · Generated 14 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

## Background

Explains carbon credits for a project or business — what they are, voluntary vs compliance markets, Indian carbon market awareness, eligibility (additionality, methodologies, verification) and the process (registration, monitoring, verification, issuance) — with a caution on market volatility. Use this to understand credits and offsets. Engage a specialist for actual registration.

## Purpose of this tool & output

Understand carbon credits and offsets

## How the output is used

Use it to understand carbon credits and offsets — how they work, the standards, eligibility and the practical steps to monetise them.

## Important cautions

AI-generated guide; carbon markets are evolving, engage a specialist.
