

ESG Strategy Builder

Energy, Power & Renewables

Document type: Plan / SOP / strategy / guide · Generated 29 Aug 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Builds an ESG strategy framework for a business — environment (energy, emissions, water, waste), social (people, community, safety) and governance (ethics, compliance, disclosure) — with a roadmap of priorities and targets and BRSR awareness for listed companies. Use this for a credible ESG plan. For the emissions baseline use the Carbon Footprint Calculator.

Purpose of this tool & output

Build a credible ESG strategy

How the output is used

Use it to build a credible ESG strategy — material issues, goals, initiatives and a roadmap grounded in your operations, not greenwash.

Important cautions

AI-generated strategy; set measurable, honest targets to avoid greenwashing.

Companion documents
