

Height & Electrical Safety SOP

Energy, Power & Renewables

Document type: Plan / SOP / strategy / guide · Generated 14 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Writes a height and electrical safety SOP for an energy or solar site — height safety (fall protection, anchors, ladders, roof access) and electrical safety (isolation, lockout, DC and AC safety, arc flash, PPE) with the required work permits. Use this for the two biggest on-site risks. Implement it under a competent safety officer.

Purpose of this tool & output

Two biggest risks, handled

How the output is used

Use it to handle the two biggest risks — working at height and live electrical work — with a focused SOP, controls and PPE.

Important cautions

AI-generated SOP; implement under a competent safety officer.
