Power Purchase Agreement Guide

Energy, Power & Renewables

Document type: Plan / SOP / strategy / guide · Generated 27 Aug 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Explains and outlines a Power Purchase Agreement (PPA) for a renewable project — the basics (tariff, term, offtake obligation, payment security), the key clauses (tariff and escalation, term, delivery point, curtailment, payment and security, force majeure, default and termination) and the offtaker types (DISCOM, C&I open access, group captive). Use this to understand and structure a PPA. Engage legal and financial advisors before signing.

Purpose of this tool & output

Understand and structure a PPA

How the output is used

Use it to understand and structure a Power Purchase Agreement — tariff, term, offtake obligations, payment security and risks — before you negotiate one.

Important cautions

AI-generated guide; PPAs are complex, engage legal and financial advisors.
