

Rooftop Solar Proposal Builder

Energy, Power & Renewables

Document type: Plan / SOP / strategy / guide · Generated 14 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Builds a customer-facing rooftop solar proposal — system overview, annual generation and bill savings, pricing (capex or opex with subsidy adjustment), payback and ROI, inclusions and a why-us section. Use this to present and close a deal. For the internal engineering sizing first use the Solar System Sizing tool.

Purpose of this tool & output

A clear customer proposal that converts

How the output is used

Use it to present and close a deal — a customer-facing proposal with generation, bill savings, pricing, payback and a why-us section.

Important cautions

AI-generated proposal; confirm site design and current prices and subsidies.
