

AMC / Service Contract

Energy, Power & Renewables

Document type: Contract / agreement · Generated 14 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Drafts an AMC service contract for a solar or energy installation — a clause-by-clause draft covering scope (comprehensive or non-comprehensive), performance or availability, response times, spares, charges, penalties and term, plus schedules. Use this for servicing installed systems (rooftop scale). For a large power-plant O&M use the O&M Contract; have this reviewed by a lawyer.

Purpose of this tool & output

Service contracts for installed systems

How the output is used

Use the draft for an AMC or service contract on installed systems — scope, response times, exclusions, price and renewal — then have a lawyer review it.

Who receives it

The service provider and the customer who sign it, each keeping a copy.

Fees & charges

Nominal stamp duty per your state stamp act; GST is handled in invoicing.

Who should vet it

A lawyer — to check the scope, response times, exclusions, liability and renewal terms before signing.

Important cautions

AI-generated template; have it reviewed by a lawyer before signing.
