

Team Skill Matrix

Energy, Power & Renewables

Document type: Plan / SOP / strategy / guide · Generated 15 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Builds a skill matrix for an energy or solar team — skills (design, installation, electrical, O&M, safety) mapped to proficiency levels and coverage targets — with a gap analysis and training plan. Use this to see skill coverage and where to train. For a technician training program use the Technician Training Program.

Purpose of this tool & output

Map technical skills and coverage

How the output is used

Use it to map technical skills and coverage — who can do what, where the gaps are and what training to prioritise.

Important cautions

AI-generated matrix; populate with real assessments.

Companion documents

- Energy Sector Hiring Kit
- Technician Training Program
- Site Safety Plan
- Height & Electrical Safety SOP
- Incident / Accident Report
- Team Roster Planner
