

Solar Subsidy & Scheme Finder

Energy, Power & Renewables

Document type: Financial model / analysis · Generated 27 Aug 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Identifies the solar subsidies and schemes a customer can claim — central rooftop subsidy (PM Surya Ghar), state incentives and accelerated depreciation for commercial — with the benefit, eligibility, how to claim and documentation for each. Use this to help customers maximise incentives. For business/developer-side schemes use the Energy Incentive & Scheme Finder.

Purpose of this tool & output

Help customers claim solar incentives

How the output is used

Use it to identify the central rooftop subsidy, state incentives and depreciation a customer can claim, with eligibility and how to claim each.

Who should vet it

An empanelled installer or an energy consultant, to confirm current scheme rates and eligibility before you promise a subsidy to a customer.

Important cautions

AI-generated list; subsidy schemes and rates change, confirm on official portals.
