

Equipment Supply Contract

Energy, Power & Renewables

Document type: Contract / agreement · Generated 14 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Drafts an equipment supply contract for an energy business — a clause-by-clause draft covering equipment and specs, quantity and schedule, price and escalation, quality and testing, warranties, delivery and risk, payment, penalties, GST and dispute resolution, plus schedules. Use this to lock supply of panels and equipment. Have it reviewed by a lawyer.

Purpose of this tool & output

Lock supply of panels and equipment

How the output is used

Use the draft to lock supply of panels and equipment — quantity, price, delivery, quality/BIS, warranty and liability — then have a lawyer review it.

Who receives it

The buyer and the equipment supplier who sign it, each keeping a copy.

Fees & charges

Nominal stamp duty per your state stamp act; GST is handled in invoicing.

Who should vet it

A lawyer — to check delivery, quality/BIS conformity, price-variation, warranty and liability before signing.

Important cautions

AI-generated template; have it reviewed by a lawyer before signing.
