

Warranty Terms Builder

Energy, Power & Renewables

Document type: Contract / agreement · Generated 27 Aug 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Drafts clear warranty terms for a solar or energy installation to give customers — product warranty (panels, inverter pass-through), performance warranty (generation or PR), workmanship warranty, exclusions and the claim process. Use this to set clear customer-facing warranty terms. Align to OEM warranties and have them reviewed.

Purpose of this tool & output

Clear warranty terms for customers

How the output is used

Use the draft to set clear warranty terms for customers — coverage, exclusions, duration, claim process and limits — then have a lawyer review it.

Who receives it

The seller and the customer; the terms accompany the sale and each keeps a copy.

Fees & charges

No stamp duty for warranty terms issued with a sale; only the underlying invoice attracts GST.

Who should vet it

A lawyer — to align the warranty with the Consumer Protection Act and your back-to-back manufacturer warranties.

Important cautions

AI-generated terms; align to OEM warranties and have them reviewed.
