This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Get a plan to offset residual emissions or claim carbon-neutrality for a company, product or event — reduce-first principle, high-quality offset selection, quantity, and credible claims — to avoid greenwashing. Describe the context below.

Purpose of this tool & output

Offset residual emissions credibly

How the output is used

Use it to offset residual emissions credibly — an offset and neutrality plan that uses genuine, verifiable offsets after reduction.

Important cautions

AI-generated plan; neutrality claims are scrutinised - reduce first, buy verified credits, and communicate accurately.
