

Industry Category Determination

Environment & Waste Management

Document type: Financial model / analysis · Generated 27 Aug 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Get help determining the pollution category (Red/Orange/Green/White) of an industry or activity — based on the CPCB categorisation — so you know the consent, monitoring and siting implications. Describe the activity below.

Purpose of this tool & output

Red, orange, green or white?

How the output is used

Use it to determine your industry category — red, orange, green or white — which decides your consent, monitoring and compliance load.

Who should vet it

An environmental consultant, to confirm the category against the current CPCB classification before you plan compliance.

Important cautions

AI-generated determination; verify against the current CPCB categorisation list and your SPCB.
