Climate Risk Assessment (TCFD)

Environment & Waste Management

Document type: Financial model / analysis · Generated 28 Aug 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Get a climate risk assessment framework for a company — physical and transition risks and opportunities, scenario thinking, and disclosure alignment (TCFD/ISSB) — to understand and disclose climate risk. Describe the company below.

Purpose of this tool & output

Assess physical and transition risk

How the output is used

Use it to assess physical and transition risk — a TCFD-aligned climate risk assessment for disclosure or resilience planning.

Who should vet it

A climate-risk or ESG advisor, to validate the scenarios and risk ratings before you disclose or plan on them.

Important cautions

AI-generated framework; quantify with site/geospatial data and align to the required disclosure standard.

Companion documents
