

EC Application Kit

Environment & Waste Management

Document type: Licence / statutory filing · Generated 27 Aug 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Get a documentation and preparation kit for an Environmental Clearance application — the forms, studies, plans and clearances typically required, and the submission route (PARIVESH) — so the application is complete. Describe the project below.

Purpose of this tool & output

Assemble a complete EC application

How the output is used

Use it to assemble a complete Environmental Clearance (EC) application — the documents, EIA/EMP and forms a strong EC application needs.

Who receives it

The application is filed on the PARIVESH portal to the MoEFCC (for Category A) or the State/UT Environment Impact Assessment Authority (SEIAA, for Category B).

How to submit / file it

File Form 1, the pre-feasibility report, ToR-based EIA/EMP and public-consultation record on PARIVESH; the Expert Appraisal Committee appraises before the authority grants the EC.

Fees & charges

PARIVESH processing charges plus the substantial cost of the EIA study, baseline monitoring and public consultation; the EC carries conditions and validity.

Who should vet it

The Expert Appraisal Committee (EAC/SEAC) and the authority; a NABET-accredited EIA consultant prepares the application.

Important cautions

AI-generated kit; confirm exact requirements for your category on PARIVESH with an accredited consultant.

Companion documents

- EIA Process Guide
- Terms of Reference (ToR) Preparation
- Environmental Management Plan (EMP)
- Public Hearing / Consultation Kit
- Form 1 / Screening Preparation Guide
- EC Category / Applicability Screener

This is AI-assisted guidance. Verify with a qualified professional before any binding decision. Fees, authorities and processes vary by state and change over time — confirm with your state authority.
