Materiality Assessment

Environment & Waste Management

Document type: Financial model / analysis · Generated 27 Aug 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Get a materiality assessment framework for a company — identifying and prioritising the ESG topics most important to the business and stakeholders — to focus strategy and reporting. Describe the company below.

Purpose of this tool & output

Find the ESG topics that matter most

How the output is used

Use it to find the ESG topics that matter most — a materiality assessment that prioritises issues by stakeholder and business impact.

Who should vet it

An ESG advisor, to validate the material topics and prioritisation against your sector and stakeholders.

Important cautions

AI-generated framework; validate with actual stakeholder engagement.

Companion documents

- ESG Strategy
- BRSR Report Preparation
- Sustainability Report
- GHG Emissions Inventory (Scope 1-2-3)
- Net-Zero / Decarbonisation Roadmap
- Sustainability / Environment Policy
