

Material Recovery Facility (MRF) Setup

Environment & Waste Management

Document type: Plan / SOP / strategy / guide · Generated 27 Aug 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Get a guide to setting up a Material Recovery Facility — layout and sorting lines, equipment, throughput and staffing, and material offtake — to recover recyclables from dry waste. Describe the MRF below.

Purpose of this tool & output

Set up dry-waste sorting and recovery

How the output is used

Use it to set up dry-waste sorting and recovery — a Material Recovery Facility (MRF) plan for the layout, equipment and flow.

Important cautions

AI-generated guide; adapt to your input waste and market; confirm consents.
