This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Draft an operation and maintenance contract for an environmental facility (ETP/STP/pollution-control/monitoring system) — scope, performance/output guarantees, manpower and consumables, and penalties — for O&M services. Fill in the terms below.

Purpose of this tool & output

Contract operation & maintenance

How the output is used

Use the draft for an operation and maintenance (O&M) contract for an ETP, STP or system — scope, performance guarantee, spares and liability — reviewed by a lawyer.

Who receives it

The agreement is between the facility owner and the O&M operator; each keeps a signed copy.

Fees & charges

Stamp duty per your state stamp act; GST is handled in invoicing.

Who should vet it

A lawyer, to check the performance-guarantee, compliance-responsibility and liability clauses before signing.

Important cautions

AI-generated draft; have a lawyer review before signing.
