This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Get help preparing the Terms of Reference for an EIA study — the standard and project-specific study terms, baseline components and additional studies the appraisal committee is likely to seek — to secure ToR. Describe the project below.

Purpose of this tool & output

Draft ToR for the EIA study

How the output is used

Use it to draft the Terms of Reference (ToR) for the EIA study — the scope the study must cover so the EAC grants ToR without delay.

Important cautions

AI-generated framework; ToR is finalised by the appraisal committee - prepare with an accredited EIA consultant.
