

Water Reuse / Recycling Plan

Environment & Waste Management

Document type: Plan / SOP / strategy / guide · Generated 15 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Get a treated-water reuse plan for a facility — matching treated-water quality to non-potable uses (flushing, cooling, landscaping, process), treatment gap, dual plumbing, and reuse norms — to maximise safe reuse. Describe the situation below.

Purpose of this tool & output

Reuse treated water safely

How the output is used

Use it to reuse treated water safely — a water reuse and recycling plan matching treated-water quality to the reuse purpose.

Important cautions

AI-generated plan; confirm reuse quality norms and avoid cross-connection with potable water.
