This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Get a crowd-management plan for a public event — capacity and density control, entry/exit and queuing, marshalling and communication, and surge/emergency response — to keep crowds safe. Describe the event below.

Purpose of this tool & output

Keep large crowds safe and orderly

How the output is used

Use it to keep large crowds safe and orderly — a crowd-management plan across capacity, flow, barriers and marshals.

Important cautions

AI-generated plan; validate with a site survey, police and a safety officer - crowd safety is critical.
