

Technical Rider Builder

Events, Weddings & Entertainment

Document type: Plan / SOP / strategy / guide · Generated 28 Aug 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Build a technical and hospitality rider for a performing artist or act — stage, sound, backline, monitors, power, and green-room/hospitality needs — to share with the venue and production team. Describe the act below.

Purpose of this tool & output

Document what a performer needs on stage

How the output is used

Use it to document what a performer needs on stage — a technical rider builder that captures the artist stage, sound and hospitality needs.

Important cautions

AI-generated rider; confirm exact specs with the artist and venue.

Companion documents

- Event Decor Concept
- Stage & Set Design Brief
- AV, Sound & Lighting Plan
- Production Schedule (Load-in to Load-out)
- Floral Plan
- Vendor Load-in & Coordination Plan
