This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Generates a bankable Detailed Project Report (DPR) — promoter background, market, technical, cost of project and means of finance, projected P&L/cash flow, break-even and repayment — with key ratios. Use it to apply for project finance. For the document pack, use the Loan Application Document Checklist.

Purpose of this tool & output

Generate a detailed project report banks accept for funding

How the output is used

Use it to generate a detailed project report (DPR) that banks accept for funding — the structure, projections and annexures.

Important cautions

Have a CA validate the financial projections before submission.
