

Fish Culture SOP

Fisheries & Aquaculture

Document type: Plan / SOP / strategy / guide · Generated 14 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Produces a grow-out SOP for finfish culture — daily and weekly routines for feeding, water, health, sampling and records — so the farm runs consistently. Use it to standardise operations.

Purpose of this tool & output

Standard operating procedure for grow-out

How the output is used

Use it to standardise daily and weekly operations across staff — feeding, water checks, sampling and records — and adapt the schedules to your species, season and water.

Important cautions

A general operating template; adapt schedules to your species, stocking, season and water. Train staff and rely on local expertise and testing rather than fixed rules for interventions.
