

Feed Selection Advisor

Fisheries & Aquaculture

Document type: Plan / SOP / strategy / guide · Generated 27 Aug 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Recommends feed type, brand class, protein grade and pellet size for your species and stage — weighing cost, FCR and quality. Use it to pick feed before a crop.

Purpose of this tool & output

Choose the right feed and grade

How the output is used

Use it to choose the right feed and grade — a feed selection advisor across species, stage, protein and cost.

Important cautions

Feed performance depends on freshness, storage and your management as much as brand; evaluate on FCR and growth, not price alone. Buy from reputable suppliers and check manufacturing date and storage.
