

Seafood FSSAI Registration Guide

Fisheries & Aquaculture

Document type: Licence / statutory filing · Generated 27 Aug 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Explains FSSAI registration or licence for seafood businesses — handling, storage, processing and retail — with category, documents, hygiene requirements and the process. Use it before selling food-grade seafood.

Purpose of this tool & output

FSSAI for seafood handling and processing

How the output is used

Use the output to identify the correct FSSAI tier for your scale, assemble the documents, and set up the hygiene and cold-chain and testing practices the licence requires.

Who receives it

Food Safety and Standards Authority of India (FSSAI), via the FoSCoS portal.

How to submit / file it

Apply on FoSCoS for the right tier (Registration / State / Central) with KYC, layout and product details; inspection may follow.

Fees & charges

Government fee varies by tier and years; typically modest for registration, higher for State/Central licences.

Who should vet it

A food-safety consultant for the correct tier and Schedule-4 hygiene compliance.

Important cautions

FSSAI tiers depend on turnover, capacity and activity and rules change; exporters also need EIA and HACCP approvals. Confirm your tier and requirements with FSSAI and, for export, the Export Inspection Agency.
