

MPEDA Registration Guide

Fisheries & Aquaculture

Document type: Licence / statutory filing · Generated 14 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Explains MPEDA registration for seafood exporters, farms and processors — categories, eligibility, documents and the application process, plus RCMC and IEC. Use it before exporting marine products.

Purpose of this tool & output

Register with MPEDA for seafood export

How the output is used

Use it to register with MPEDA for seafood export — the MPEDA registration an exporter of marine products must hold.

Who receives it

The registration (RCMC) is granted by the Marine Products Export Development Authority (MPEDA) under the commerce ministry.

How to submit / file it

Apply to MPEDA with the entity, IEC, and facility details for the relevant exporter category; verification precedes registration.

Fees & charges

A registration fee per the exporter category and periodic renewal; registration is needed to export marine products and access MPEDA schemes.

Who should vet it

An export consultant and MPEDA, which verify the entity and category before registration.

Important cautions

MPEDA categories, fees and forms change. Confirm the current requirements and category for your activity with MPEDA and pair with IEC, RCMC and (for processors) EIA and HACCP approvals.
