

Sustainability Certification Guide

Fisheries & Aquaculture

Document type: Plan / SOP / strategy / guide · Generated 14 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Explains sustainability and responsible-aquaculture certifications — ASC, BAP, MSC, GlobalG.A.P and organic — their requirements, market value and how to get certified. Use it to access premium and demanding export buyers.

Purpose of this tool & output

Get ASC, BAP, MSC or organic certified

How the output is used

Use it to get ASC, BAP, MSC or organic certified — a sustainability certification guide across the standard, audit and buyer premium.

Important cautions

Certification requirements, costs and buyer recognition vary and change; certification needs real practice change and ongoing audits, not just paperwork. Confirm which scheme your buyers accept and the current requirements with the certifying body before committing.
