

Contract Manufacturing / Co-Packing Setup

FMCG Brands & Distribution

Document type: Plan / SOP / strategy / guide · Generated 16 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Guides setting up contract manufacturing / co-packing — selecting and auditing a co-packer, formulation and quality control, costing and MOQs, IP and confidentiality, and supply reliability — so you make product asset-light with quality control. Use it to outsource production. For the contract use the Co-Packing / Contract Manufacturing Agreement.

Purpose of this tool & output

Make product via a co-packer without losing control

How the output is used

Use it to make product via a co-packer without losing control — a co-packing setup covering quality, IP and supply reliability.

Important cautions

Protect your recipe and enforce QC; a co-packer quality lapse is your brand recall. Have the agreement lawyer-reviewed.
