Aggregator Agreement Review

Food Service, Restaurants & Cloud Kitchens

Document type: Financial model / analysis · Generated 26 Aug 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Reviews and explains a food-aggregator partner agreement — commission, payout, deductions, liability, delisting and exclusivity — flagging risky terms and what you can/cannot negotiate. Use it before signing on. Paste the agreement and add your concerns.

Purpose of this tool & output

Understand a Swiggy/Zomato partner contract

How the output is used

Use the tool to understand a Swiggy/Zomato partner contract before you sign — commission, terms and liabilities.

Who should vet it

A lawyer, to flag the commission, penalty and liability clauses.

Important cautions

Guidance, not legal advice. Aggregator agreements are largely standard-form with limited negotiation for small partners — focus on understanding commission, payout deductions (reconcile them), refund/complaint liability and delisting triggers. You typically do not own the customer data. Reconcile payouts against the terms every cycle.
