This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Produces a franchise disclosure document for prospective food franchisees — brand, model, investment, fees, obligations, support, unit economics and risks — presented transparently. Use it to disclose fairly and build trust. For the binding contract use the Food Franchise Agreement (F11).

Purpose of this tool & output

Give franchisees a fair, clear disclosure

How the output is used

Use the builder to give franchisees a fair, clear disclosure document.

Important cautions

Disclose realistic unit economics and risks honestly — inflated earnings claims are unethical and legally risky and cause franchisee failure and disputes. India lacks a single franchise-disclosure law, but fair transparent disclosure is best practice and builds trust. Have franchise documents legally reviewed.
