Document type: Contract / agreement · Generated 13 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Drafts a job-work agreement with a karigar or fabrication unit, from your discrete terms — scope, rates, material accounting and quality. Use it to formalise outsourced making. For managing job-work use the Karigar / Job-Work Management tool.

Purpose of this tool & output

Draft a job-work contract with a karigar or unit

How the output is used

Use the draft for a job-work contract with a karigar or unit — scope, rate, quality, timeline and material responsibility with discrete terms — reviewed by a lawyer.

Who receives it

The agreement is between your business and the karigar/job-work unit; each keeps a signed copy.

Fees & charges

Stamp duty per your state stamp act where applicable; the rate, quality, material-responsibility and timeline terms are the key content.

Who should vet it

A lawyer, to check the material-responsibility, quality, rework and liability clauses before signing.

Important cautions

This is a draft using your inputs, not legal advice. Material accounting (challan, yield, wastage liability, GST job-work) and quality-rework terms are critical to prevent leakage and disputes. Clarify the job-worker is an independent contractor. Have a lawyer review it before signing.
