This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Designs an organisation structure for a furniture business — design, production or sourcing, sales, project or installation, logistics and accounts — with reporting. Use it to organise and scale. For hiring sequence use the Furniture Staffing & Hiring Plan.

Purpose of this tool & output

Design roles across make, sell and deliver

How the output is used

Use it to design roles across make, sell and deliver — a furniture business org structure that keeps the chain running.

Important cautions

Furniture depends on coordinating design, production or sourcing, sales, delivery and installation — gaps between these cause delays, damage and unhappy customers. Prioritise production or sourcing supervision and delivery or installation quality. Adapt roles to your model and scale.
