Background

Produces a setup plan for a furniture business — model, segment, sourcing or manufacturing, showroom or online, registrations and a launch checklist. Use it to start out. For a funding document use the Furniture Business Plan.

Purpose of this tool & output

Start a furniture or furnishings business

How the output is used

Use it as your first roadmap to start a furniture or furnishings business — the model, licences, sourcing and first products you need before you open.

Important cautions

Furniture is inventory- and display-heavy with long cash cycles; manufacturing adds a factory licence, pollution consent (wood dust and finishing) and legal-timber-sourcing obligations. Confirm registrations for your model and state, and validate demand before committing to inventory.
