

Cafe Equipment & Upgrade Planner

Gaming, Esports & Digital Entertainment

Document type: Plan / SOP / strategy / guide · Generated 13 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Produces an equipment specification, maintenance and upgrade plan for a gaming cafe — rig specs, peripherals, network, maintenance routine and upgrade cycle/budget. Use it to spec and sustain hardware. For setup use the Gaming Cafe Setup Guide.

Purpose of this tool & output

Spec and maintain gaming cafe hardware

How the output is used

Use it to spec and maintain gaming-cafe hardware — an equipment and upgrade planner that balances performance, cost and lifespan.

Important cautions

Right-size rigs to the titles you actually run (over-spec wastes capital), maintain them preventively, and budget a phased upgrade cycle — hardware ages and cafes must stay competitive. Costs are indicative; get current local quotes.
