Purpose of this tool & output

Choose the right gaming business model

How the output is used

Use it to choose the right gaming business model — studio, publisher, RMG, esports, streaming or cafe — against your capital and skills.

Important cautions

Real-money/fantasy gaming offers the biggest revenue but carries the heaviest, state-varying legal and tax risk in India; dev studios and streaming are lighter but hit/platform-dependent. Match the model to your risk appetite and skills. Get legal advice before any RMG path.
