Document type: Plan / SOP / strategy / guide · Generated 14 Oct 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

## Background

Produces a launch roadmap for a real-money or fantasy gaming platform in India — legal structure, skill-vs-chance basis, state-law mapping, licensing/SRB, KYC/AML, GST/TDS, payments and responsible-gaming — flagging the heavy compliance load. Use it to plan an RMG launch. For the game/software side use the studio tools.

## Purpose of this tool & output

Launch an RMG or fantasy platform in India

## How the output is used

Use it to launch an RMG or fantasy platform in India — the skill-based model, compliance, payments and responsible-gaming needed to operate.

## Important cautions

Real-money gaming is heavily regulated and state-varying in India — only skill-based games are broadly permissible, several states ban or restrict online real-money play, GST applies at 28% on deposits and TDS at 30% on net winnings, and the IT online-gaming rules apply. You **MUST** engage specialist gaming lawyers before launch. This is general guidance, not legal, tax or compliance advice.
