This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Produces an end-to-end plan to organise an esports tournament — format and rules, platform/production, prize pool, sponsorship, broadcast and operations. Use it to run an event. For sponsorship deals use the Sponsorship Agreement (G11).

Purpose of this tool & output

Plan and run an esports tournament

How the output is used

Use it to plan and run an esports tournament — the format, platform, prize pool, ops and broadcast of a competitive event.

Important cautions

Competitive integrity (anti-cheat, referees, a clear rulebook) and reliable broadcast production are essential to a credible esports event, and sponsorship typically funds the prize pool. Note TDS applies to prize winnings. This is operational guidance; confirm tax/contract points with professionals.
