Jewellery Export Costing

Gems & Jewellery

Document type: Financial model / analysis · Generated 29 Aug 2026

This guide explains what the tool produces, how to use the output, and what to watch for. The actual output (draft/report) is generated on the tool page.

Background

Build an export cost sheet for a jewellery order — metal, stones, making, certification, secure logistics and insurance, and margin — to arrive at FOB/CIF export prices. Enter the order and cost inputs below.

Purpose of this tool & output

Price an export order correctly

How the output is used

Use it to price an export order correctly — an export costing across metal, stones, making, duty, freight and margin.

Who should vet it

Your CA or export desk, to confirm the duty, freight and incoterm assumptions before you quote.

Important cautions

AI-generated cost sheet; confirm secure-logistics, insurance and current gold rate before quoting.
